

CEPLAS

Cluster of Excellence on Plant Sciences

SMART Plants for Tomorrow's Needs

The Cluster of Excellence on Plant Sciences is a joint unit of Heinrich Heine University Düsseldorf, University of Cologne, Max Planck Institute for Plant Breeding Research Cologne and Forschungszentrum Jülich. CEPLAS is developing innovative science-based strategies for sustainable plant production. Our aim is to understand the mechanisms underpinning complex plant traits of agronomic relevance that impact on yield and adaptation to limited resources.

Student assistant (SHK)

The Institute for Plant Sciences, Lab Maekawa, at the University of Cologne is currently recruiting a bachelor student for a student helper position. The position is on an 8 hours/week basis.

The successful candidate will be involved in the following tasks :

Support laboratory work for plant scientists. The job activities will include, but are not limited to:

- Maintenance of the laboratory in a regulated environment.
- Performing administrative and management work associated with your tasks.

Qualification profile:

- Excellent written and spoken English
- Experience in the field of plant biology, molecular biology, or a related discipline, is plus.

We offer:

- a diverse and fair working environment
- support in reconciling work and family life
- flexible working time models
- training opportunities for molecular plant biology including advanced microscopy

Applicants matching the qualification profile please send their application letter, including a short CV, to Dr. Takaki Maekawa tmaekawa@uni-koeln.de
