

Research assistant

The Institute for Quantitative Genetics and Genomics of Plants at the Heinrich Heine University Düsseldorf is now offering a position as a research assistant (SHK / WHB) at the Max Planck Institute for Plant Breeding Research in Cologne. The number of working hours will be about 40-80.

Responsibilities:

You support us on various tasks:

- Processing of cereal and corn samples
- Processing of harvested material

We offer you the opportunity to work in a young and motivated team and to get an insight into a research institute.

Requirements:

- Enrolled in biology, agricultural sciences or related fields
- A reliable, organized, and independent way of working as well as stress resilient
- Preparation of seed for sowing
- Assistance in sowing

Please send your application and questions to:

Ines Sigge
